Dear parents and Carranballac friends,

I am going to have a *Carranballac brag* newsletter script today.

**Wow for Wakakirri:** An awesome performance! It is important for our community to understand the significance of this performance. The on stage result is the culmination of good parenting, professional teaching and specialised performing arts fine tuning.

We should all feel very proud of our staff, parents and students who were directly or indirectly involved in Friday night's performance - well done!

**Sport at Carranballac** has wonderful depth and breadth. Our physical education staff, strongly supported by teaching and support staff are providing continuous opportunities for students to participate and compete. This week it was basketball.

**FOPA: Festival of Performing Arts.** Families are welcome to visit Jamieson Way this week to watch the performances from a variety of schools across Hobsons Bay and Wyndham. I had great pleasure in welcoming two Wyndham Councillors yesterday to the Festival: Cr Peter Maynard (Mayor) and Councillor Heather Marcus (Arts and Education portfolio). They were both suitably impressed with the variety and quality of performance. Sincere thanks to Gaye Edmonds for her continued commitment to our College Music and Performing Arts.

**FOVA:** please take the time to view the Art work on display at the Point Cook town centre from a number of local schools. I would ask you to pay particular attention to the Carranballac art work. Our College art work is vibrant, colourful, creative and attractive. I was extremely proud of our student's work - well done staff and students.

**Parent Forum:** School Council will be hosting a second parent forum on Tuesday the 8th September at 7.30pm in the PAC at Boardwalk. Families are welcome to come along, have their say, ask questions and also listen to recent activities at the College. Our last forum resulted in the adoption of a number of suggestions from parents which have been acted on.

**Web Page:** The developments keep coming: Student icons are not far away, a canteen ordering system is just around the corner, a student banking tab has been added already and the positive suggestions keep rolling in. In the future we hope to have a continuous news feed with a suitable app for all smart phones - this will lead to the elimination of the College newsletter as it will be obsolete.

**QUOTE for this week:**
"The cure for boredom is curiosity. There is NO cure for curiosity."  Ellen Parr.

The Inquiry Learning approach that the College staff utilise has the express purpose of inspiring curiosity. Staff facilitate learning through Inquiry Units of work driven by quality questioning rather than directing student learning. The challenge for all of us is: How do we build and support curiosity in the next generation?

Have an excellent week.
Brendan O’Brien.
College Director.
Boardwalk School Report—Principal Kay Kearney

Year 7 students enjoyed a very successful visit to the Werribee Zoo on Monday. They now have a better understanding of endangered species and how managing environmental issues along with government policies in particular may protect these animals.

SoundHouse Singers, Minor Sensation and the Junior Rock Band have performed brilliantly at the FOPA performances at Jamieson Way this week. Well done to our talented students!

Thank you to the “Banking Ladies” for organising the Commonwealth Bank presentation at assembly on Monday. The 21st Century concept of banking is so different from what we grew up with and it is important for our students to understand the concept of saving money. Following on from this the Year 5/6 students will experience 1-hour workshop-encouraging students to earn and save money. Once again, supported by the Commonwealth Bank.

Winter ills and chills are certainly taking hold of many students and staff and it is a struggle to remain healthy at the moment. We are all doing our best!

Have a good week!

Jamieson Way School Report—Principal Sandy Naughton

Absolutely amazing effort last Friday night by our Year 5/6 students at Wakakirri. Their confidence and excitement was so special! We have our fingers crossed waiting for the results. Thank you to our magnificent staff for their incredible efforts throughout the day and well into the night, to ensure our students enjoyed every minute of this experience. Thank you to the parents who made their way over to Moonee Ponds to support us.

This week Jamieson Way School is hosting a Festival of Performing Arts (FOPA). Parents are most welcome to join us as schools from all around showcase their talents, and of course our own stars will be shining! Our amazing Ms Edmonds has extended this festival to include a Festival of Visual Arts (FOVA) at the town centre. The art work from our students will make you feel very proud indeed!

Our budding young Year 7 scientists have created fantastic terrariums in the foyer of our Middle Years building. Well done! Their science knowledge and understandings continue to deepen with their excursion to Werribee Zoo today. They are attaining strong learning outcomes in several areas of the curriculum through their hard work and focus.

As our children become older, cyber safety becomes a real issue for parents. You should know who your child is talking to, which groups they belong to, which applications they are using in the ever widening range of social media available to them. Susan McLean is a cyber safety expert based in Melbourne, who has worked with many schools, including ours, over many years. Her website offers helpful information for parents. Safe Schools Coalition Australia

Recently Carranballac P-9 College, after consultation with School Council, has become a member of Safe Schools Coalition Australia (SSCA). This makes us a part of a nearly 300-strong coalition of schools across Australia who are committed to making schools safe for all students, school staff, parents and caregivers, regardless of sexual orientation or gender identity. We are serviced by the Victorian Branch, Safe Schools Coalition Victoria, who have over 200 member schools state wide. The work of the Victorian Branch is supported by the Department of Education and Training policy guideline on discrimination.

Safe Schools Coalition Victoria will be assisting Carranballac P-9 College to implement policies, processes and procedures to ensure all students, staff, parents and caregivers are safe from discrimination in all its forms.

The first part of this process is for all staff to complete a survey to identify how they believe the school manages discrimination at the moment. This includes homophobic language and how we support individuals who identify as same sex attracted and gender diverse (people who feel that their gender identity does not align with the sex assigned to them at birth).

On the 25th of August Safe Schools Coalition will present to all staff a professional development session tailored to the needs of Carranballac P-9 College. School Councillors have been invited to attend this. Part of this PD is to guide teachers in supporting years 7 to 9 students who will then complete a student survey. This program is more a process than a one off presentation and there will be a chance for parents to attend an information session.

STUDENT ACHIEVEMENT

Congratulations to Ben and Kyle Whitehead who, as members of the Victorian Karate Team, attended the 2015 Australian Karate Federation National Championships in Adelaide in early August. Whilst they did not place they gained valuable experience at their first Nationals.

Their attentions are now turned to their association (Samurai) Nationals and Trans Tasman Invitational to be held in Melbourne at the end of August. From this competition, the Australian Samurai Karate Team will be chosen to attend the biennial Kawata Cup which will be held in Berlin Germany during 2016.
EARN & LEARN

Thank you to the families and friends of Carranballac P-9 College who have been collecting Earn and Learn stickers. We are receiving a steady trickle of completed sheets each day. In the first three weeks we have collected just over 70 completed sheets. Our target is 250 sheets by the 2nd of September. This will allow us to redeem approximately $500 in Maths and Science equipment for student use. When determining our Earn and Learn reward Woolworths counts the number of complete sheets not the number of stickers that we have collected. We have noticed that some families have been adding extra stickers to their sheets, unfortunately these extras do not get included in our count. If you do have extras please just drop them in the collection box and we will use them to fill sheets that have a few spaces on them.

Thanks for your support

Mathletics

Excellence is the gradual result of always striving to do better – Pat Riley

Mathletics has many ways in which they recognise and acknowledge students and their fantastic efforts. One of these rewards systems is the accumulation of points, which result in certificates.

The more correct answers-the more points!

Points are awarded to students as they successfully complete Live Mathletics and Curriculum Content within the program. Students achieve the most points through the Curriculum Content with each correct answer equating to 10 points.

Certificates are achieved when a student earns 1000 points or more within one week. This encourages students to complete a healthy amount of work each week. Students initially earn a Bronze Certificate, then a Silver Certificate and then a Gold Certificate.

But remember:
5xBronze=Silver
5xSilver=Gold

PROJECT:
Our Kitchen Rules

- Provide audio visual equipment in our food technology rooms so students do not need to crowd to see their teacher
- Give students a bird’s eye view to teach correct techniques and food preparation
- Better class time management being able to show the class the lesson rather than completing this individually
- Modernise the college facilities
- Promote healthy food choices and preparation

We have a purpose built food technology room at both our schools. However, students are forced to crowd the teacher’s bench to view the lesson. We would like to install a camera in the ceiling above the teachers bench and a monitor which would enable the students to see from anywhere in the classroom, allowing them to view clearly all the techniques used by their teachers. The teacher, knowing that everyone has seen the lesson plan will be able to focus on the group. They can then better assess each student and be able provide assistance if or when it is required. We believe this will provide our students with the necessary personal skills to enable them to choose a healthy and nutritious diet.
